If the following warning light comes on . . .

Follow the correction procedures

Low engine oil level warning light	Open door warning light
Low fuel level warning light	Low washer fluid warning light
Driver's seat belt reminder warning light	Front passenger's seat belt reminder warning light
Engine oil replacement reminder light (U.S.A.)	(Illuminate no flashing) Tire pressure warning light*

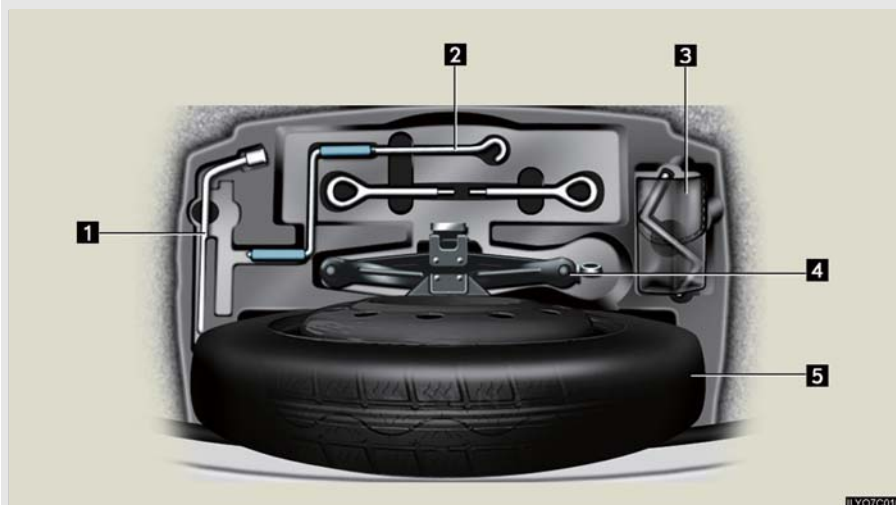
See the Owner's Manual

Turn signal indicator	ECT SNOW indicator
Headlight high beam indicator	ECT PWR indicator
Headlight indicator (U.S.A.)	Cruise control indicator
Tail light indicator (Canada)	VSC OFF indicator
Front fog light indicator	Slip indicator
Shift position indicator	Adaptive front lighting system off indicator
Shift range position indicator	Front passenger airbag on-off indicator

For further information, refer to the Owner's Manual.

*: Turns on due to natural causes such as natural air leaks or tire inflation pressure changes caused by temperature including the spare tire (excluding compact spare tire). Adjust the tire inflation pressure.

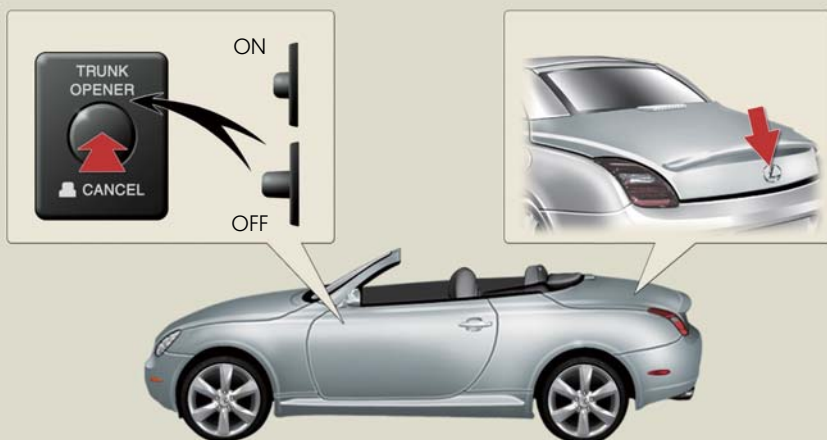
Location of Emergency Equipment

Jack, tools, and spare tire


1. Wrench
2. Jack handle
3. Tool bag
4. Jack
5. Spare tire (if equipped)

Removing the spare tire

1. Remove the tire cover.
2. Loosen the bolt and remove the spare tire.

If the retractable hardtop does not close


First, check the following:

Is the trunk lid opener main switch ON?

Is the trunk lid closed?

If the retractable hardtop still does not close, see the owner's manual for more information or contact your Lexus dealer.

If the engine (ignition) switch does not turn easily

Turn the engine switch while lightly moving the steering wheel from left to right.
